

Overview

IOM Cebu Hub is the center of logistics system of IOM Typhoon Haiyan Response. The hub is primarily involved in the procurement and transport of relief items to reach the other IOM hubs in the Visayas Region that attend to the displaced families

IOM Cebu also operates as disaster response coordinator in the affected areas of Northern Cebu with all the sectors/clusters through Camp Coordination and Camp Management (CCCM). The hub is cooperating closely with the provincial government via Task Force Paglig-on (to strengthen).
