Humanitarian Response in Mindanao Conflict Affected Communities

January 2014

IOM Philippines

IOM established its office in the Philippines in 1975. In 1988, the Philippines became an IOM Member State - among the first Member States in Asia, with Manila as one of the first regional IOM offices in late 1996. In 2003, the Global Administrative Centre was established in Manila (now known as MAC), and provides global support in the areas of finance, human management, resources information technology, staff security, project tracking, and health claims processing, among others.

IOM is a member of the UN Country Team/Humanitarian Country Team (UN CT/HCT). IOM is the coof the lead agency Department of Social Welfare and Development (DSWD) in the Camp Coordination and Camp Management (CCCM) Cluster internally displaced persons (IDP).

Background: Since 1992, IOM has supported the design and implementation of some of the largest peace process operations in the world including in Mindanao. The second largest island of the Philippines, Mindanao is home to more than 20 million people of diverse ethno-linguistic backgrounds. Of this number, about 5 million are Muslims, who belong to at least 13 ethno-linguistic groups. IOM setup its Cotabato sub-office in 2008 as response to the massive displacements and humanitarian needs brought by the GPH-MILF peace talks breakdown over the ancestral domains claim. Since then, IOM assisted cumulatively about 2,328,545 displaced individuals (1,187,558 men and 1,140,987 women) or 465,709 displaced families with various cluster activities, community-based awareness and interactive sessions on CCCM, shelter and health, and prevention of human trafficking.
