

Emergency Shelter, CCCM, Health and Protection support for the Most Vulnerable Populations affected by Typhoon Haiyan (Yolanda) in Tacloban

Haiyan impact

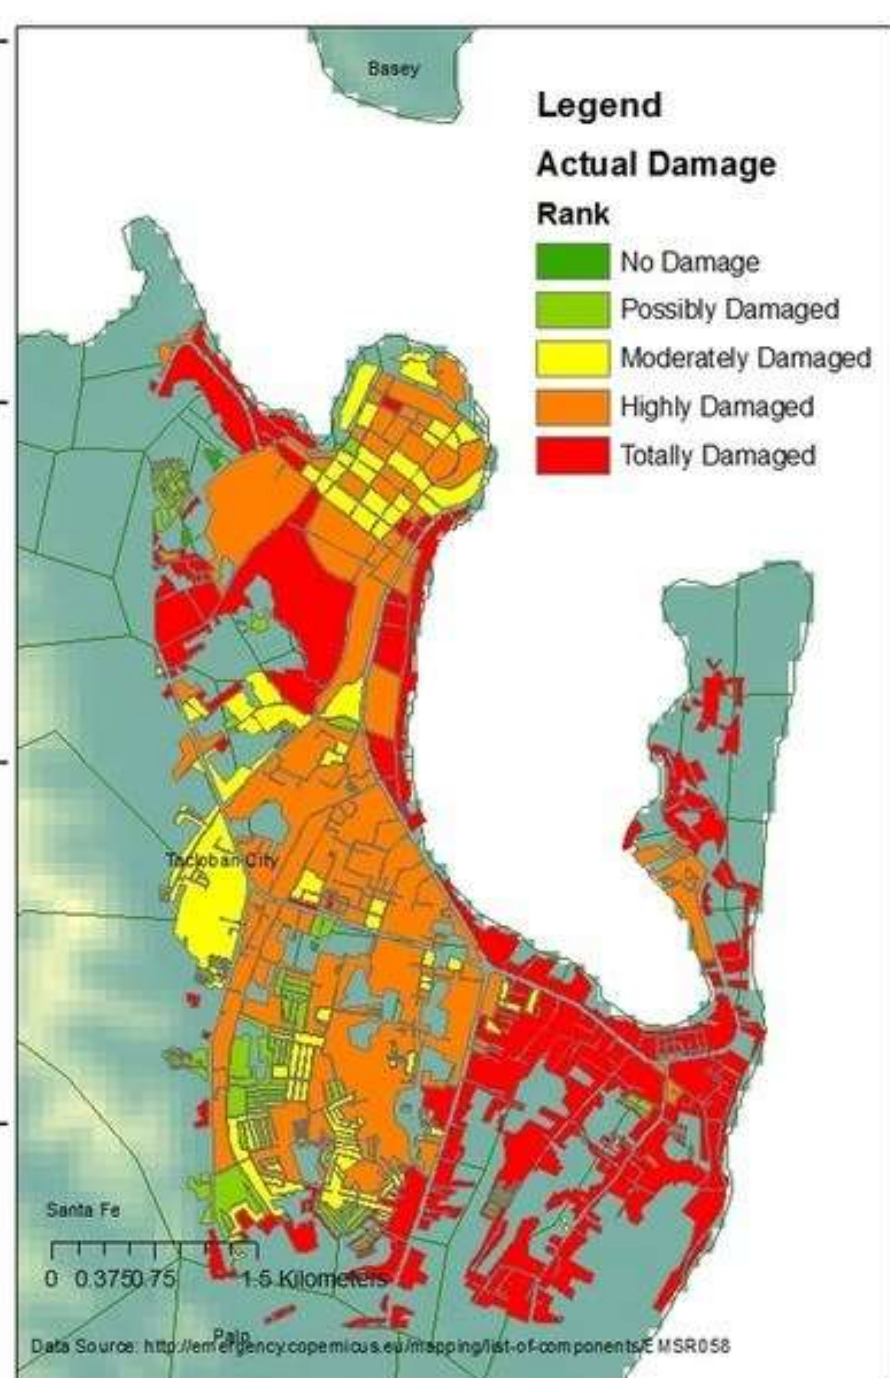

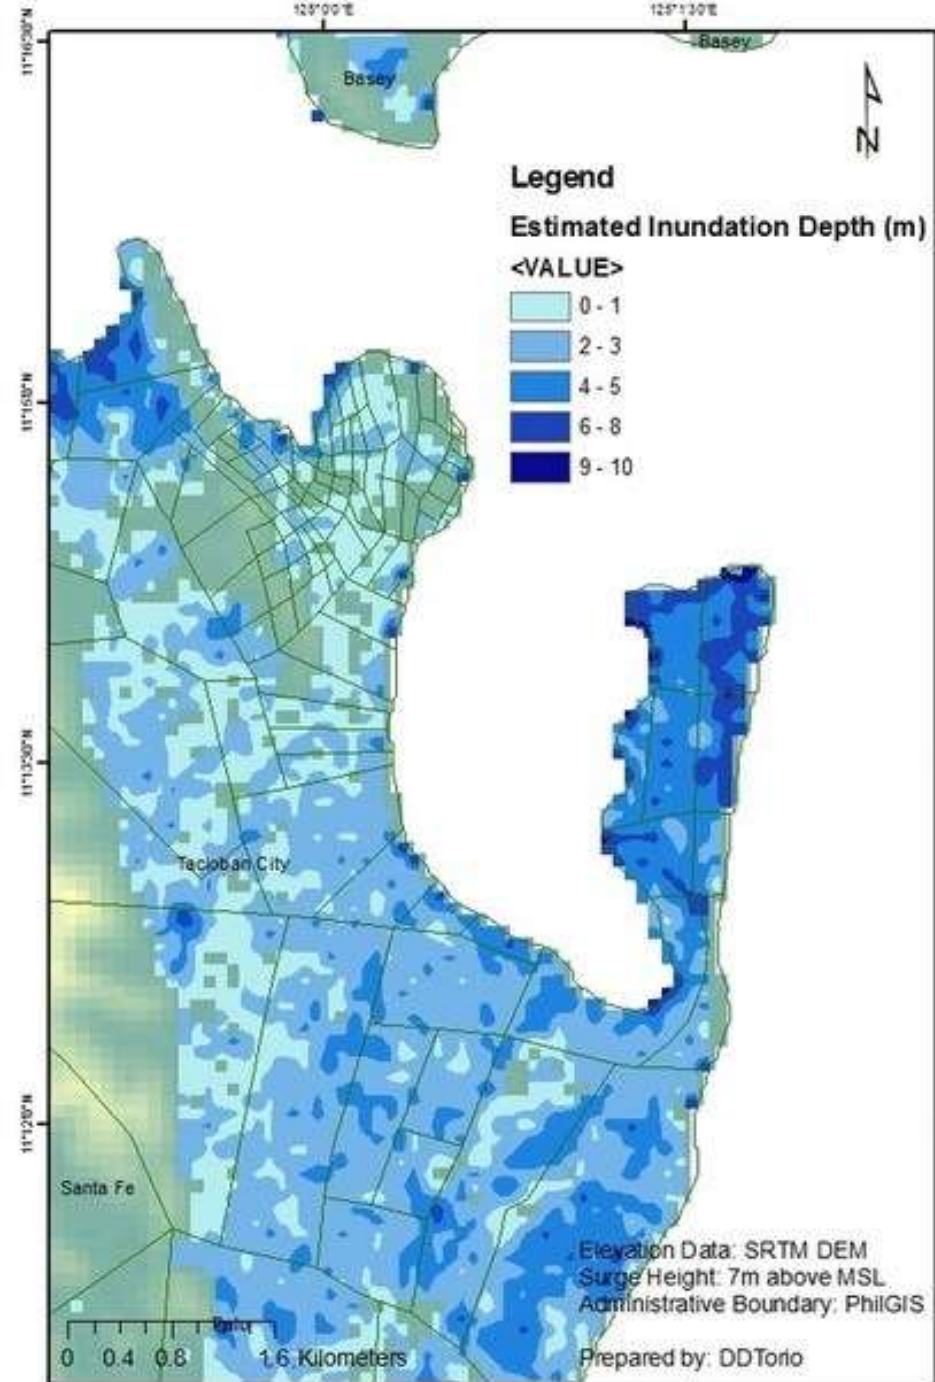

- Strongest storm ever recorded to make landfall
- Winds of up to 315kmh
- Storm surge in Tacloban up to 20ft high
- 6,201 deaths, 1,785 missing
- 28,626 injured
- Over 16 million people affected
- 1.2 million houses damaged or destroyed (more than Haiti Earthquake, 2004 Tsunami)

Before and after shots

IOM initial response

- IOM Philippines was on the ground 2 days after the typhoon, conducting assessments and establishing an operations base to provide immediate relief and assistance
- Immediately mobilised staff from other responses in Philippines and internationally to become a major presence
- Activated emergency distributions and CCCM support within days
- Key player in shelter, CCCM, protection, health, communicating with communities clusters

Objectives

A progression of shelter situation from emergency shelters to temporary recovery to permanent housing.

Principal Objective

- To complement the on-going efforts of the Government of the Philippines and the humanitarian communities to deliver holistic emergency assistance to the Yolanda-affected families through relief, recovery and community rehabilitation

Specific Objectives

- To provide improved, safer and healthier living conditions to the most vulnerable families through over-all delivery of aid through enhanced local-level coordination

	Batan
	Libacao
	Altavas
	Banga

IOM Project Hubs

Tacloban Activities

Shelter

- **catalyse self-help** for the majority of the affected population as they move along the recovery process by **providing a minimum input which will facilitate self-recovery** for those back at their place of origin;
- **minimize multiple displacements** and seek settlement solutions that will enable the provision of **durable shelter solutions**, whilst ensuring adequate and targeted services remain available for those still residing **within in displacement sites**;
- promote an **integrated response and establish partnerships** with other sectors, namely with **WASH** to enable the complementarity of shelter and sanitation assistance and **Protection** to establish a beneficiary selection criteria to target the most vulnerable families, as well as a referral mechanism for the victims of **GBV**;
- **incorporate DRR** measures to promote safer living conditions both at shelter and **settlement** levels.

Shelter

ESK

- **Emergency Shelter Kit (ESK)**
 - First phase
 - Tarpaulin, tents, fixing kit, evacuation centres

NFI

- **Non-food Items (NFI)**
 - First phase
 - Hygiene kit, dignity kit, kitchen set, solar lamps

RSK

- **Recovery Shelter Kit (RSK)**
 - Second phase
 - CGI, tool kits, DRR training, Debris to Shelter

FAQs

What is the purpose of the center?

The center is a safe space for women and children who have been victims of human trafficking. It provides them with a place to stay, food, clothing, and medical care. The center also provides them with legal assistance and helps them to find a way to support themselves.

How long will I stay at the center?

The length of stay at the center depends on the individual's situation. Some women and children may stay for a few days, while others may stay for several weeks or months. The center will work with the individual to determine the best course of action.

What services are available at the center?

The center provides a variety of services, including:

- Food and clothing
- Medical care
- Legal assistance
- Job training
- Financial counseling

How can I contact the center?

The center can be contacted at [phone number]. The center is open from [hours].

CCCM – camp coordination and camp management

- The overall goal of the CCCM Cluster is to improve living conditions of internally displaced persons by facilitating the effective provision of protection and services in camps and camp-like settings, advocate for durable solutions and ensure organized closure and phase-out of camps upon the IDPs' relocation, return, resettlement or local integration.
- IOM and UNHCR are global co-leads of CCCM. In a natural disaster setting, IOM is the designated Cluster Lead Agency for CCCM

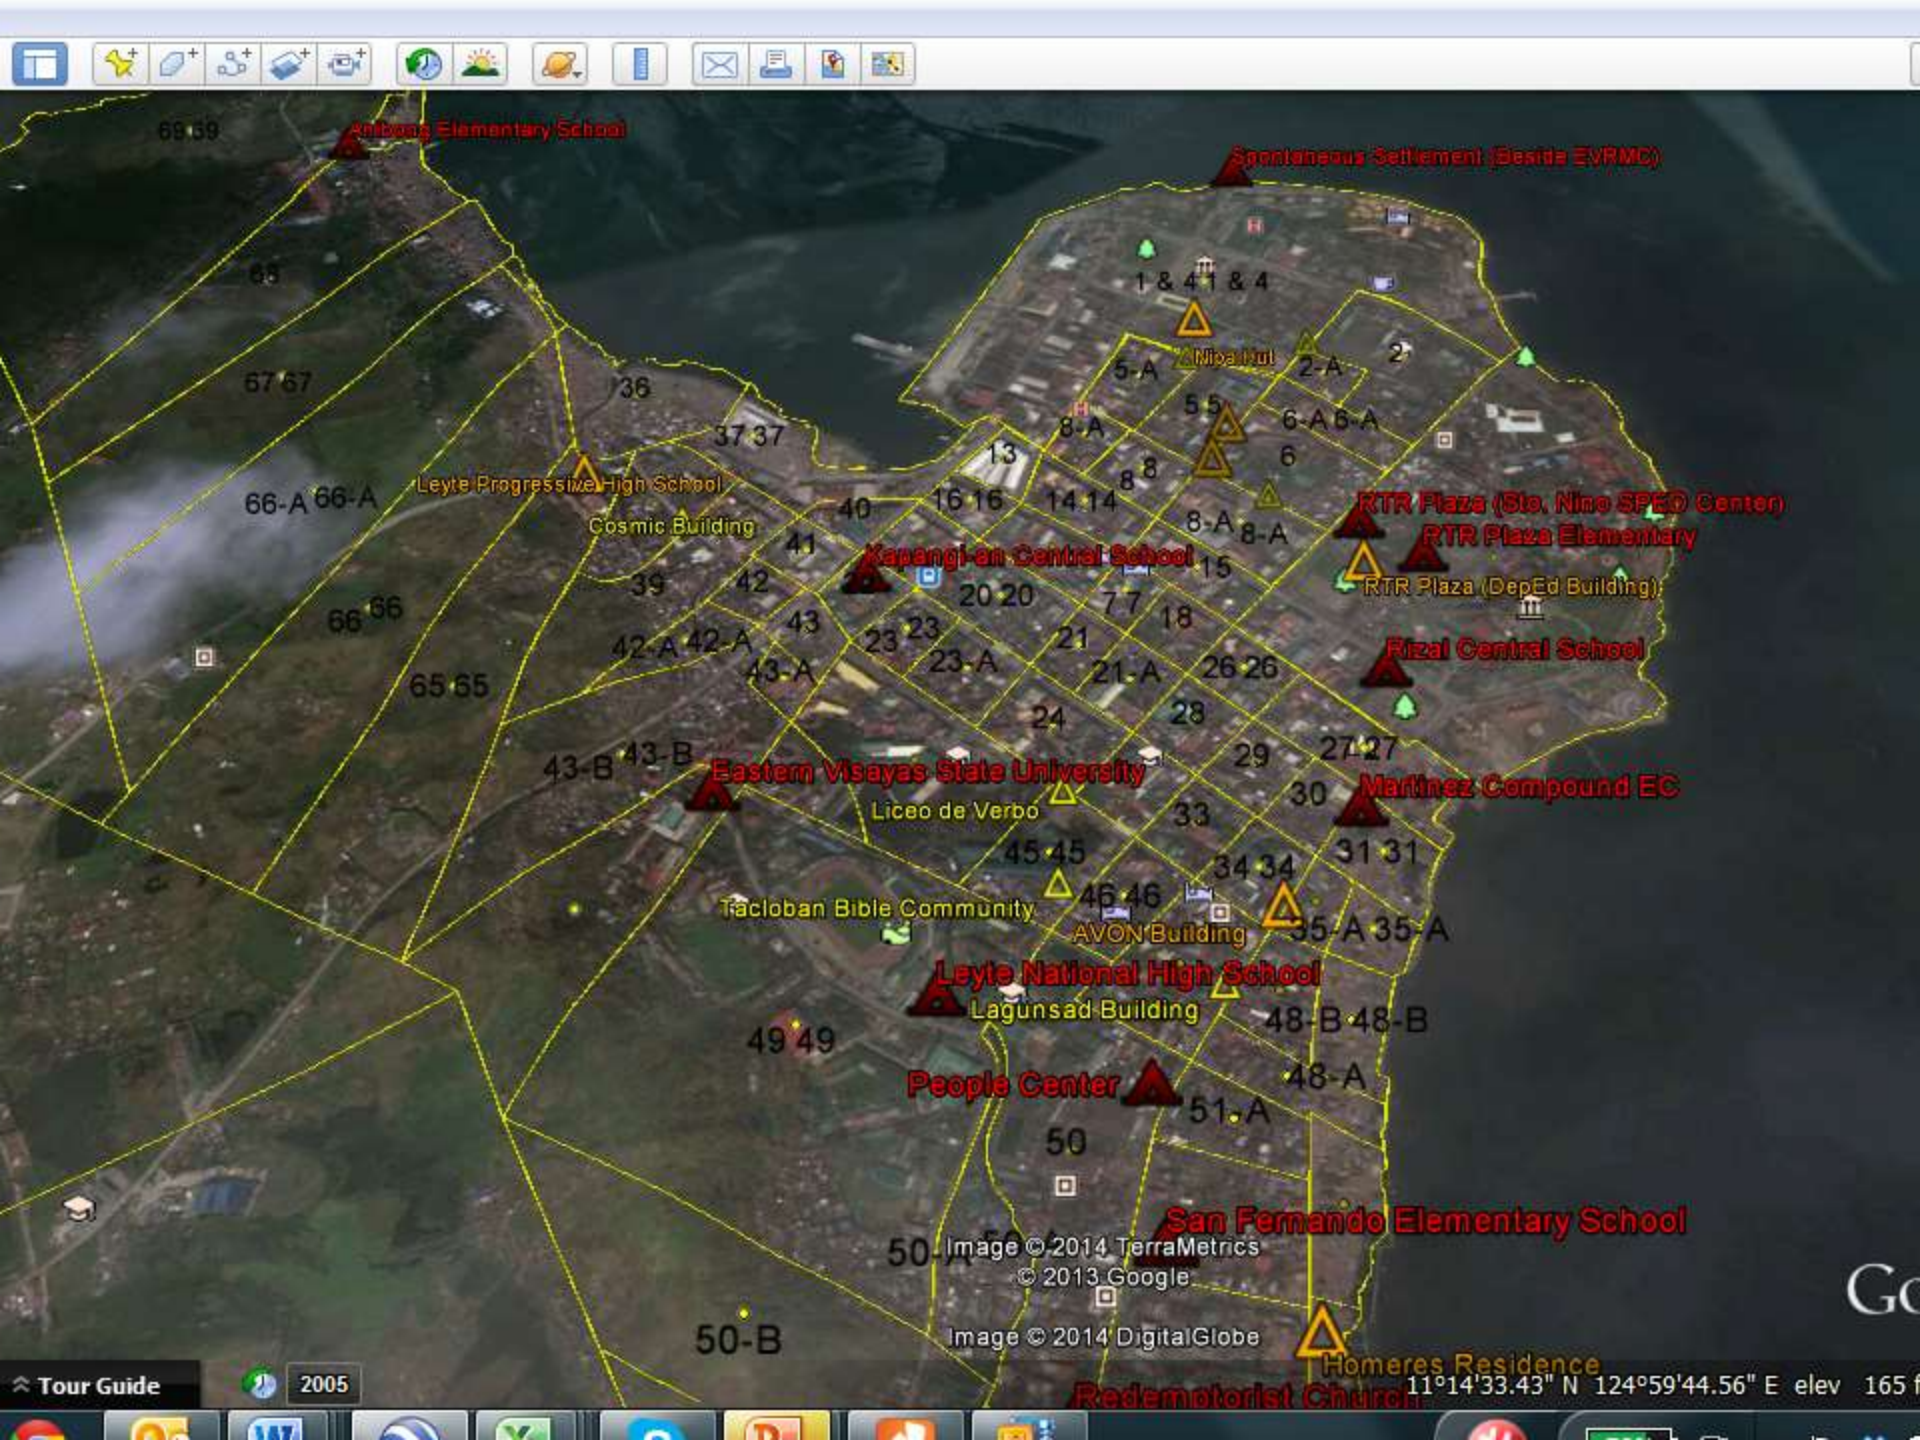

CCCM – current global clusters

DTM (Displacement Tracking Matrix)

- The Displacement Tracking Matrix (DTM) is:
 - Information management tool used by the CCCM Cluster
 - Gather baseline information on displaced populations and the conditions in the areas where they have temporarily settled.
- DTM has been rolled out in over 30 countries including Haiti, Pakistan, Mali, The Democratic Republic of Congo and The Philippines in previous emergency responses.

Province	Population in displacement sites (individuals)
EASTERN SAMAR	1,858
LEYTE	30,008
SAMAR (WESTERN SAMAR)	2,651
SOUTHERN LEYTE	5
NORTHERN SAMAR	-
BILIRAN	-
Total	34,522

Chart 1: IDP population (individuals) in IDP sites by province

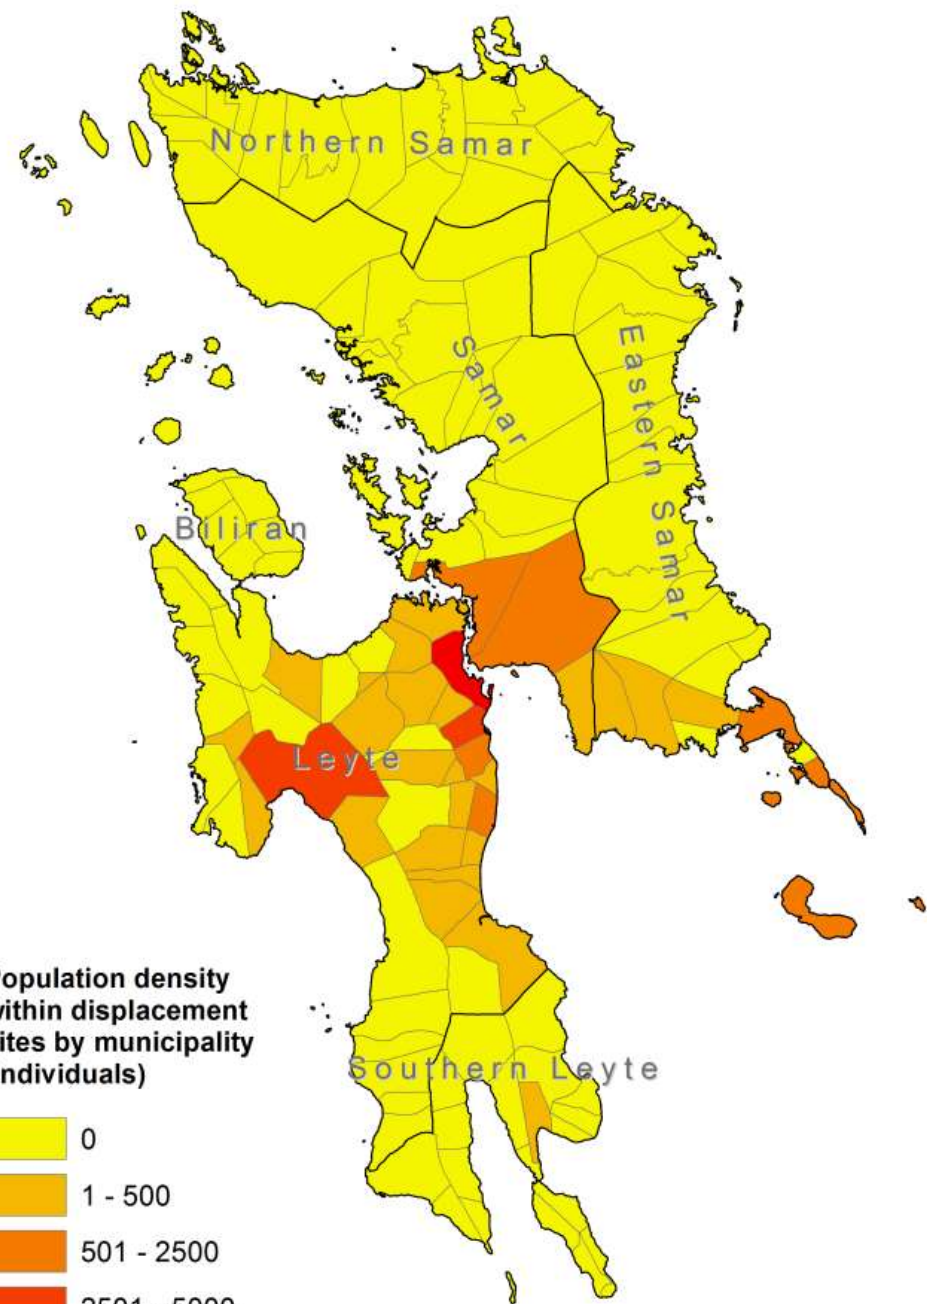

Crowding

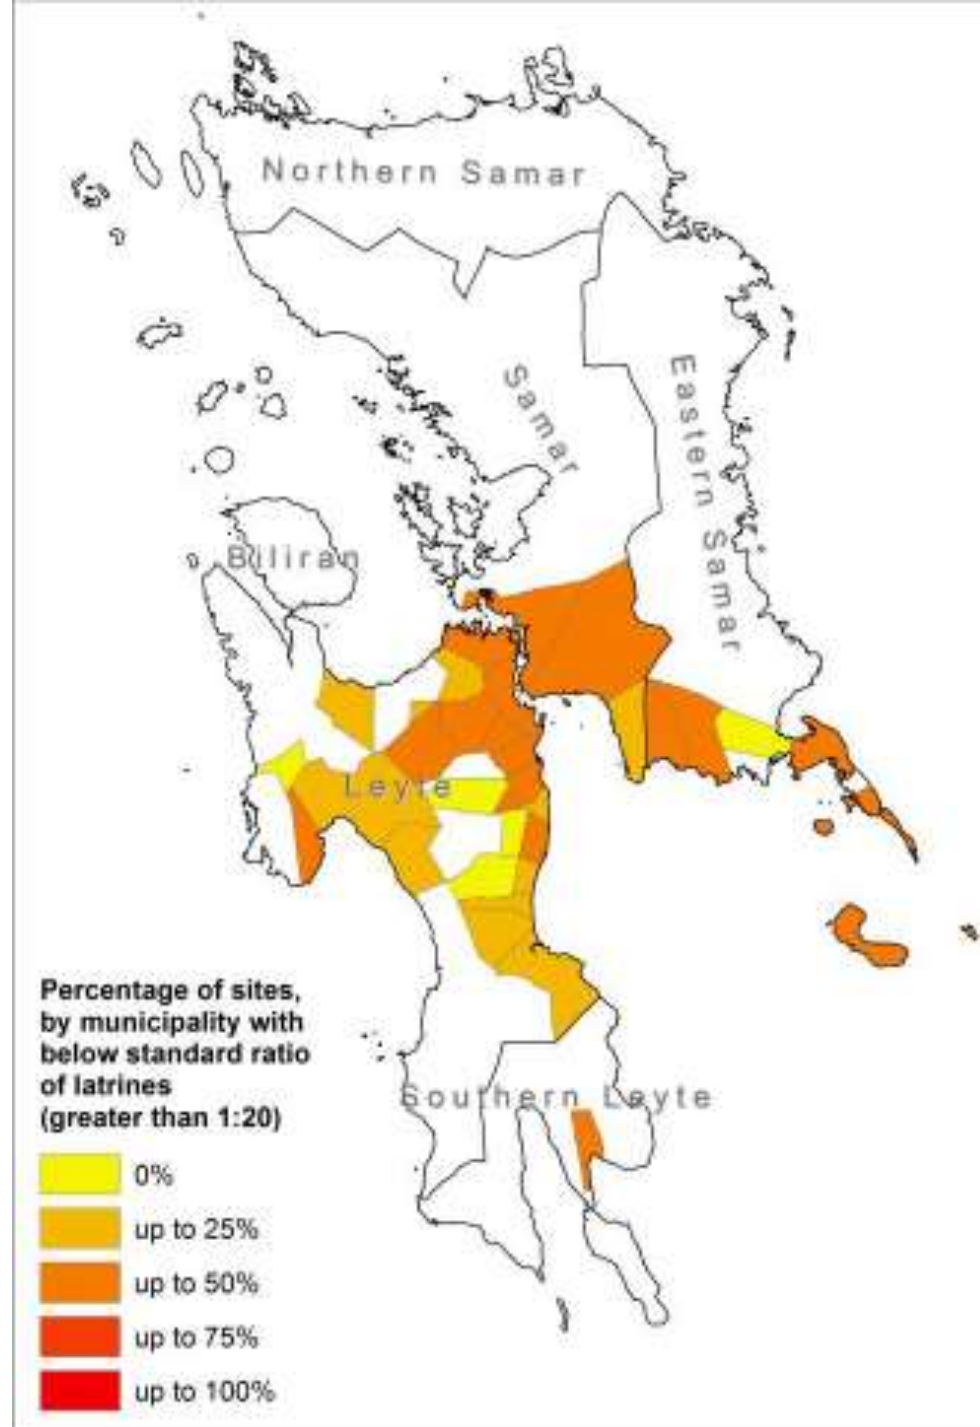

- Small
50 individuals or less
(128 sites)
- Medium
51 - 200 Individuals
(62 Sites)
- Large
201 or more individuals
(35 Sites)

Population density within displacement sites by municipality (Individuals)

WASH

- Of the 225 sites open, 81% (182 sites) have latrines onsite.
 - However, of the 182 sites, 44% have a ratio of more than 20 individuals per latrine.
- In Leyte, the province with the largest numbers of displacement sites, 36% of all sites are below emergency standards (i.e. ratio of persons per latrine is greater than 20).

DTM - ROUND 1 DECEMBER 2, 2013 - FLAGS FOR PRIORITY SITES PER SECTOR

Data Field Name	Section	Description
<u>Site_Flagged</u>	PROFILE	Sum of all flags in all section
<u>CM_Flag_1</u>	CAMP MANAGEMENT	Sites where there's no committee and the population is more than 100 individuals
<u>CM_Flag_2</u>	CAMP MANAGEMENT	Sites using school's classrooms
<u>CM_Flag_5</u>	CAMP MANAGEMENT	Sites with no distribution of DSWD card
<u>CM_Flags</u>	CAMP MANAGEMENT	Sum of all flags in this section
<u>Shelter_Flag_1</u>	SHELTER	Crowded sites where population is more than 100 individuals
<u>Shelter_Flag_2</u>	SHELTER	Crowded sites using school's classroom
<u>Shelter_Flag_3</u>	SHELTER	Crowded sites where population is more than 100 individuals and not safe from natural hazard
<u>Shelter_Flag_4</u>	SHELTER	Sites with no safe site cooking area where population is more than 100 individuals
<u>Shelter_Flags</u>	SHELTER	Sum of all flags in this section
<u>WASH_Flag_1</u>	WASH	Sites with complains over drinking water where population is more than 100 individuals
<u>WASH_Flag_2</u>	WASH	Sites with off-site water source where population is more than 100 individuals
<u>WASH_Flag_3</u>	WASH	Sites with latrine's ratio over 1:50
<u>WASH_Flag_4</u>	WASH	Sites with drainage problems where population is more than 100 individuals
<u>WASH_Flag_5</u>	WASH	Sites with no separate and well lit toilet
<u>WASH_Flags</u>	WASH	Sum of all flags in this section
<u>Health_Flag</u>	HEALTH	Sites with no health service, no referral system, no DoH SPEED, with population of more than 100 individuals, and more than 3 types of reported health issues
<u>Protection_Flag_1</u>	PROTECTION	Sites with reported incidents and no 24 hours protection
<u>Protection_Flag_2</u>	PROTECTION	Sites with no 24 hours protection and with population of more than 100 individuals
<u>Protection_Flags</u>	PROTECTION	Sum of all flags in this section

Camp Management Support

Camp Management Training

- DSWD camp managers, Barangay-level displacement focal points

Camp Management Support Staff

- Priority displacement sites supported by presence of camp management support staff

Site Upgrades and Improvements

- Privacy partitions, cooking counters, bathing cubicles

Alternative Transitional Sites

- Improved living conditions for prolonged displacement

Advocacy for durable solutions

- Free, informed and dignified return, resettlement or integration

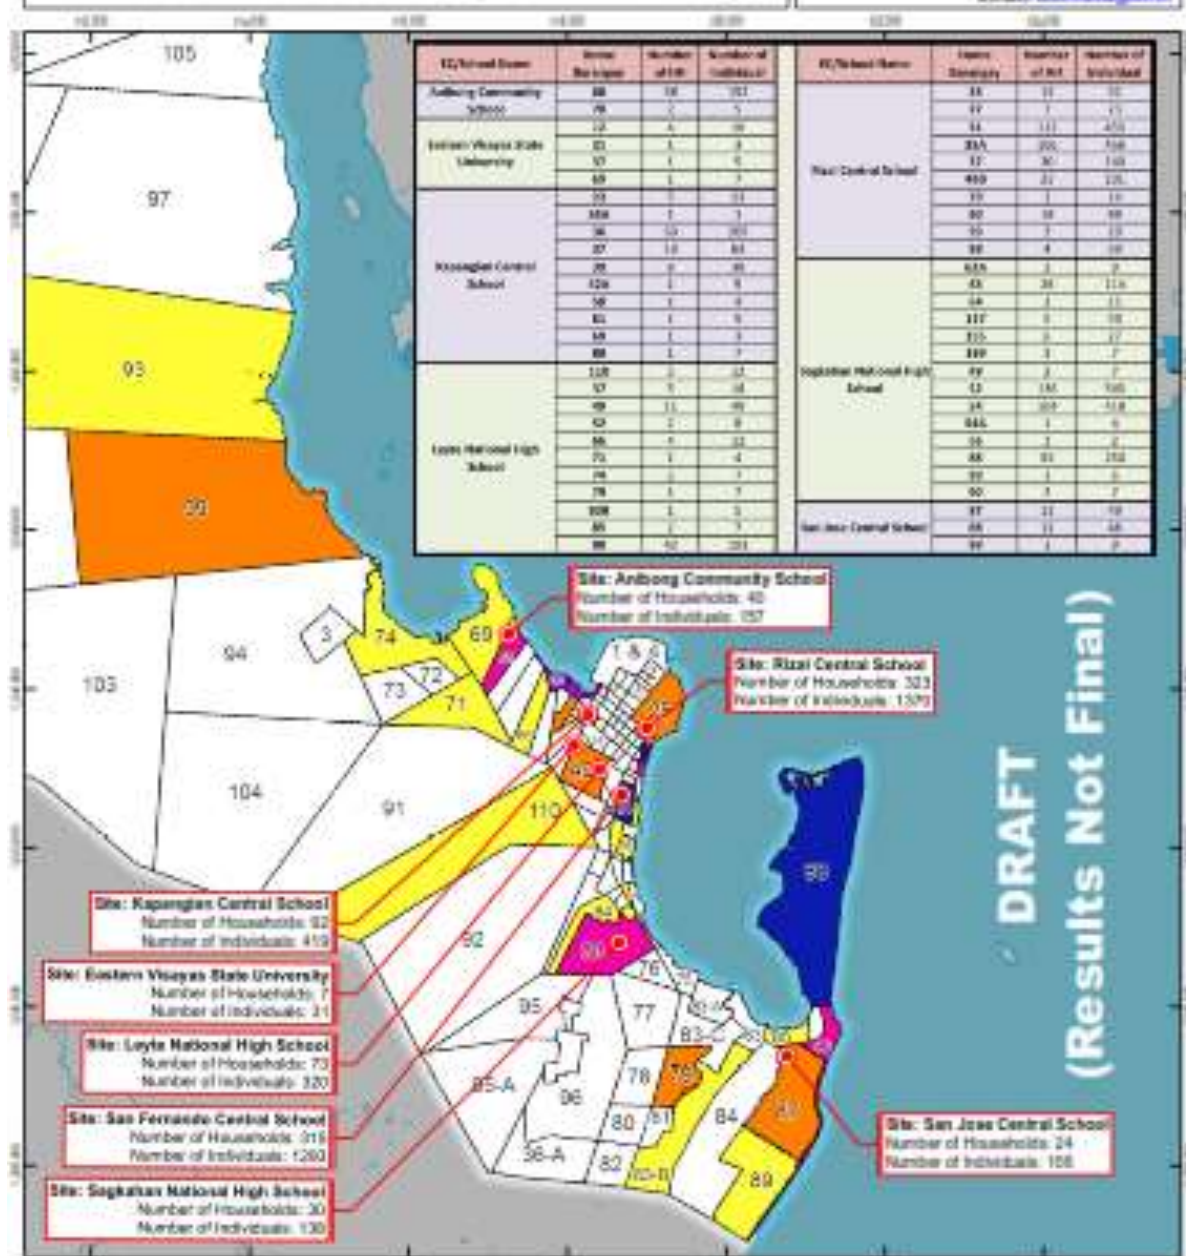

IDPs in Schools Functioning as Evacuation Centers (Tacloban City)

Shelter Cluster Philippines
ShelterCluster.org
Coordinating Humanitarian Shelter

VISIT TO THE THREE SITES WITH BUNK HOUSE WITH TACLOBAN CITY ON 20TH DEC TECHNICAL CONCERNS AND RECOMMENDATIONS

Overall adherence to standards of design and construction

- All the DPWH commissioned bunkhouses being developed in Tacloban (and we understand in all locations) are non-compliant in many respects with internationally recognised standards and best practice as set down in Sphere standards (see details below). The designs and layouts shared by DPWD with CCCM and Shelter a few

EXTENDING TO TWO THOUSAND KM

Alternative Transitional Shelter (ATS)

Health

Ensure migrants' health rights

Avoid disparities in health status and access

Public health approach to migrants' health

Reduce excess mortality and morbidity

Minimize negative impact of the migration process

Health – Migration Health Department

- Migration Health Assessments
 - Health screening for prospective migrants
- Health Promotion for Migrants
 - Migrant friendly health systems
- **Health for Migrants in Crisis**
 - **Emergency Health Support for IDPs, refugees, and migrants**
- Migration and HIV
 - Cross cutting, and stand alone
- Mental Health and Psychosocial Support
 - Global expertise on socio-cultural impacts of human movement

HIV and Mobility

Migration Health Assessments

- Health screening for prospective migrants

Health Promotion for Migrants

- Migrant friendly Health System

Health for Migrants in Crisis

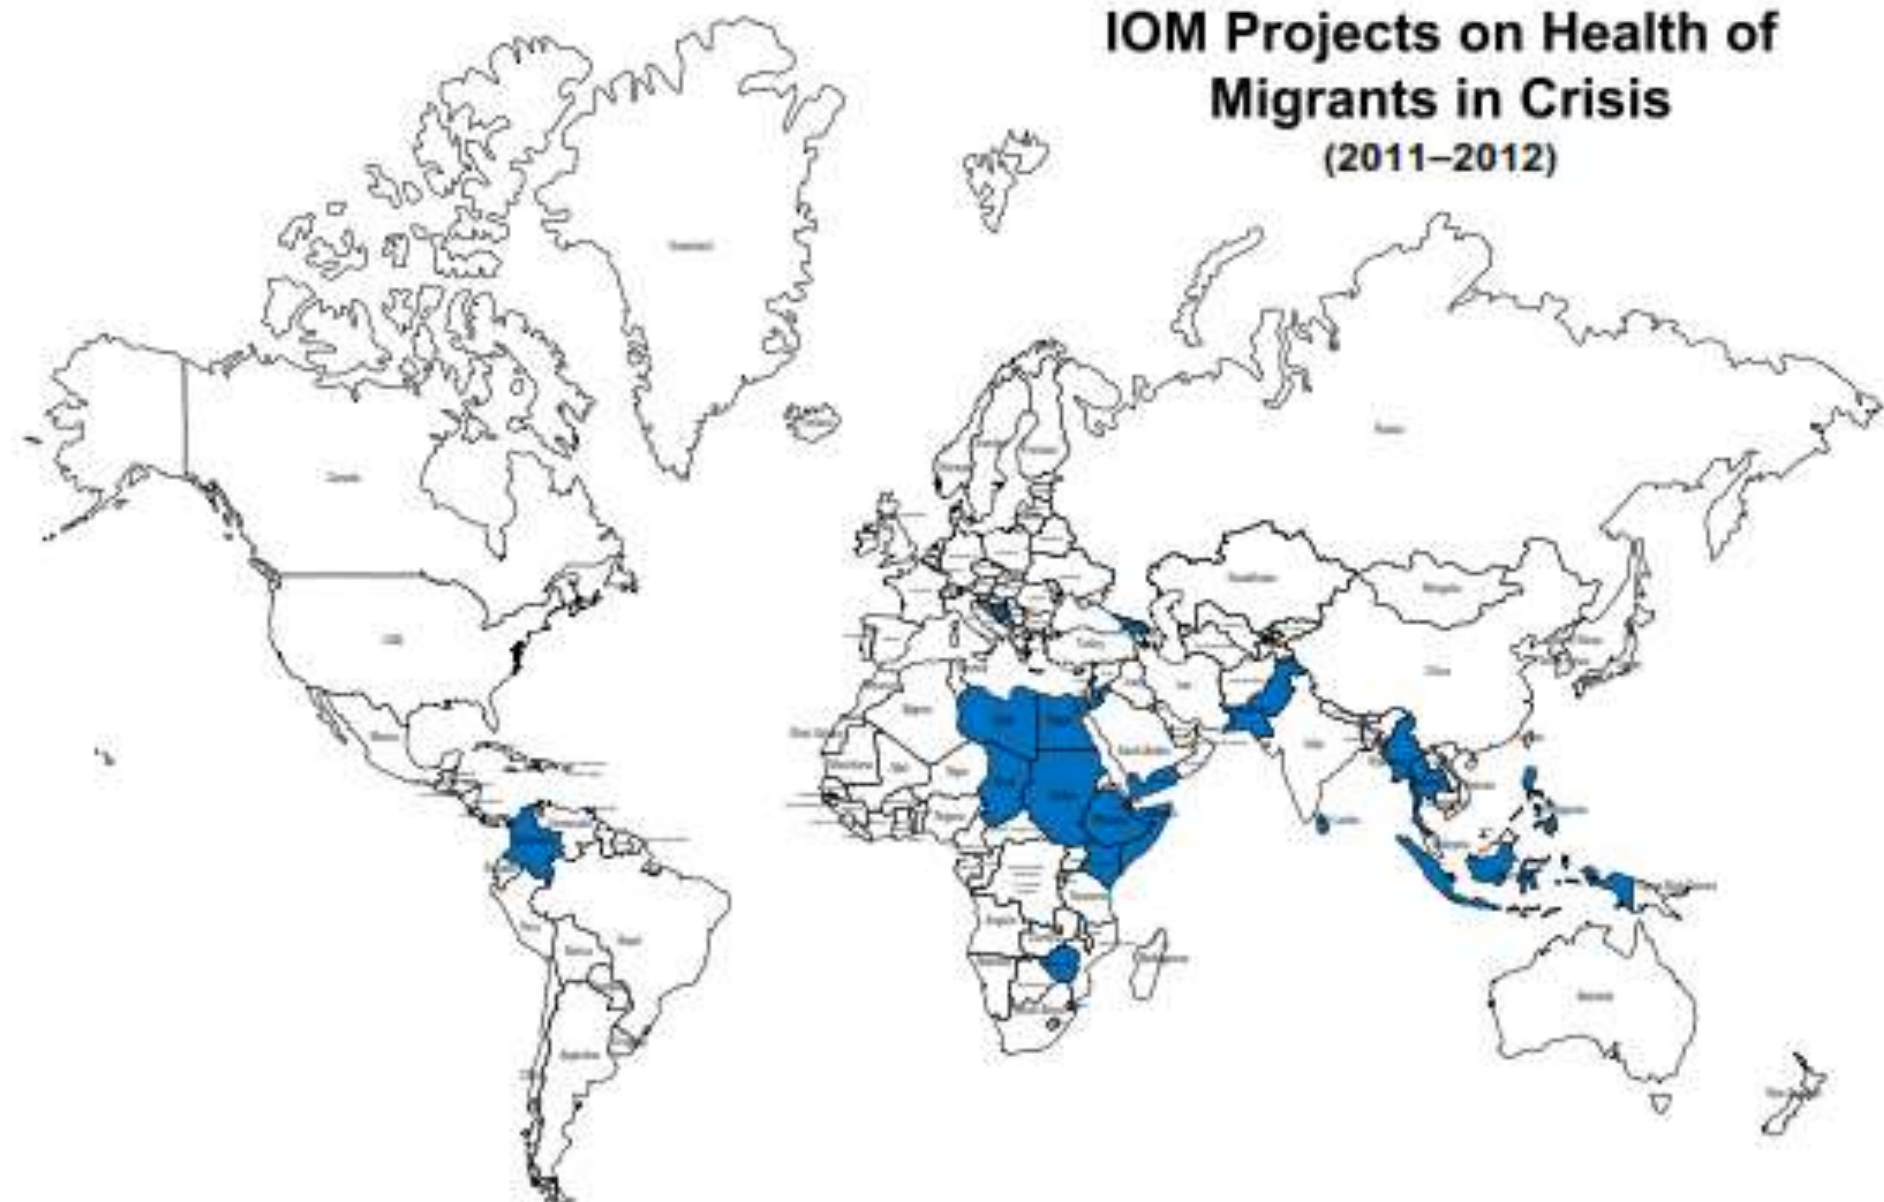

- Emergency Health Response for migrants, IDPs and refugees

Mental Health and Psychosocial Support

IOM Projects on Health of Migrants in Crisis (2011–2012)

	Typhoon	Effects	Consequence	Response	IOM’s recovery approach	
Health System	2880 health facilities damaged or destroyed	Decreased availability	Increased health risks	Foreign medical teams temporarily filled the gaps but vast majority have now left	TREAT, REBUILD Operational support to DOH health facilities	Creating safe and healthy conditions for return and revitalising the health system
	Widespread disruption to health system	Decreased access			LINK Two-way referral systems	
Public Health	3.4 million displaced	crowding, hygiene, communicable disease	+ Compounded impacts of ill-health and disease	Existing health facilities have decreased capacity with increased needs As displacement continues, public health risks will increase over time	PREVENT Addressing public health consequences of displacement	
	27,022 injuries, disruption to long term treatments	Compound vulnerability	= Disproportionate health impacts for IDPs, vulnerable families and host communities		MIND Community based psychosocial support	
	6000 deaths, 1.14 million homes damaged or destroyed	Increased emotional distress and mental illness				

Support to DOH Health Facilities

■ Outpatient Consultations	3982
■ Diagnostic Workup	120
■ Maternal and Child Health	501
■ Vaccinations	707
■ Medical Referrals	56

TOTAL:

5366

Supporting Health referrals

- Case identification through medical outreach and nurses in evacuation centres
- Support to returns from hospital and displacement sites by linking with shelter, NFI and community health services

Mental Health and Psychosocial Support

- Community based Psychosocial First Aid
- Capacity building of DOH and community leaders in mental health and psychosocial support

Addressing public health consequences of displacement

- Linking displacement sites with health facilities
- EC based nurses for case monitoring, referral and health education
- Environmental health in displacement sites

Activities in the RHUs

Assessment on Damaged Health Facilities

Medical Referrals

Provision of Medicines and Supplies

Protection

- Migration Outflow Desks (MOD)
- Counter Trafficking
 - Support government efforts in countering human trafficking through prevention and capacity building
- Sexual and Gender Based Violence (SGBV)
 - Minimise risks of GBV and ensure multi-sectoral response through survivor-centred services
- Prevention of Sexual Exploitation and Abuse (PSEA)

PACT

Communicating with communities

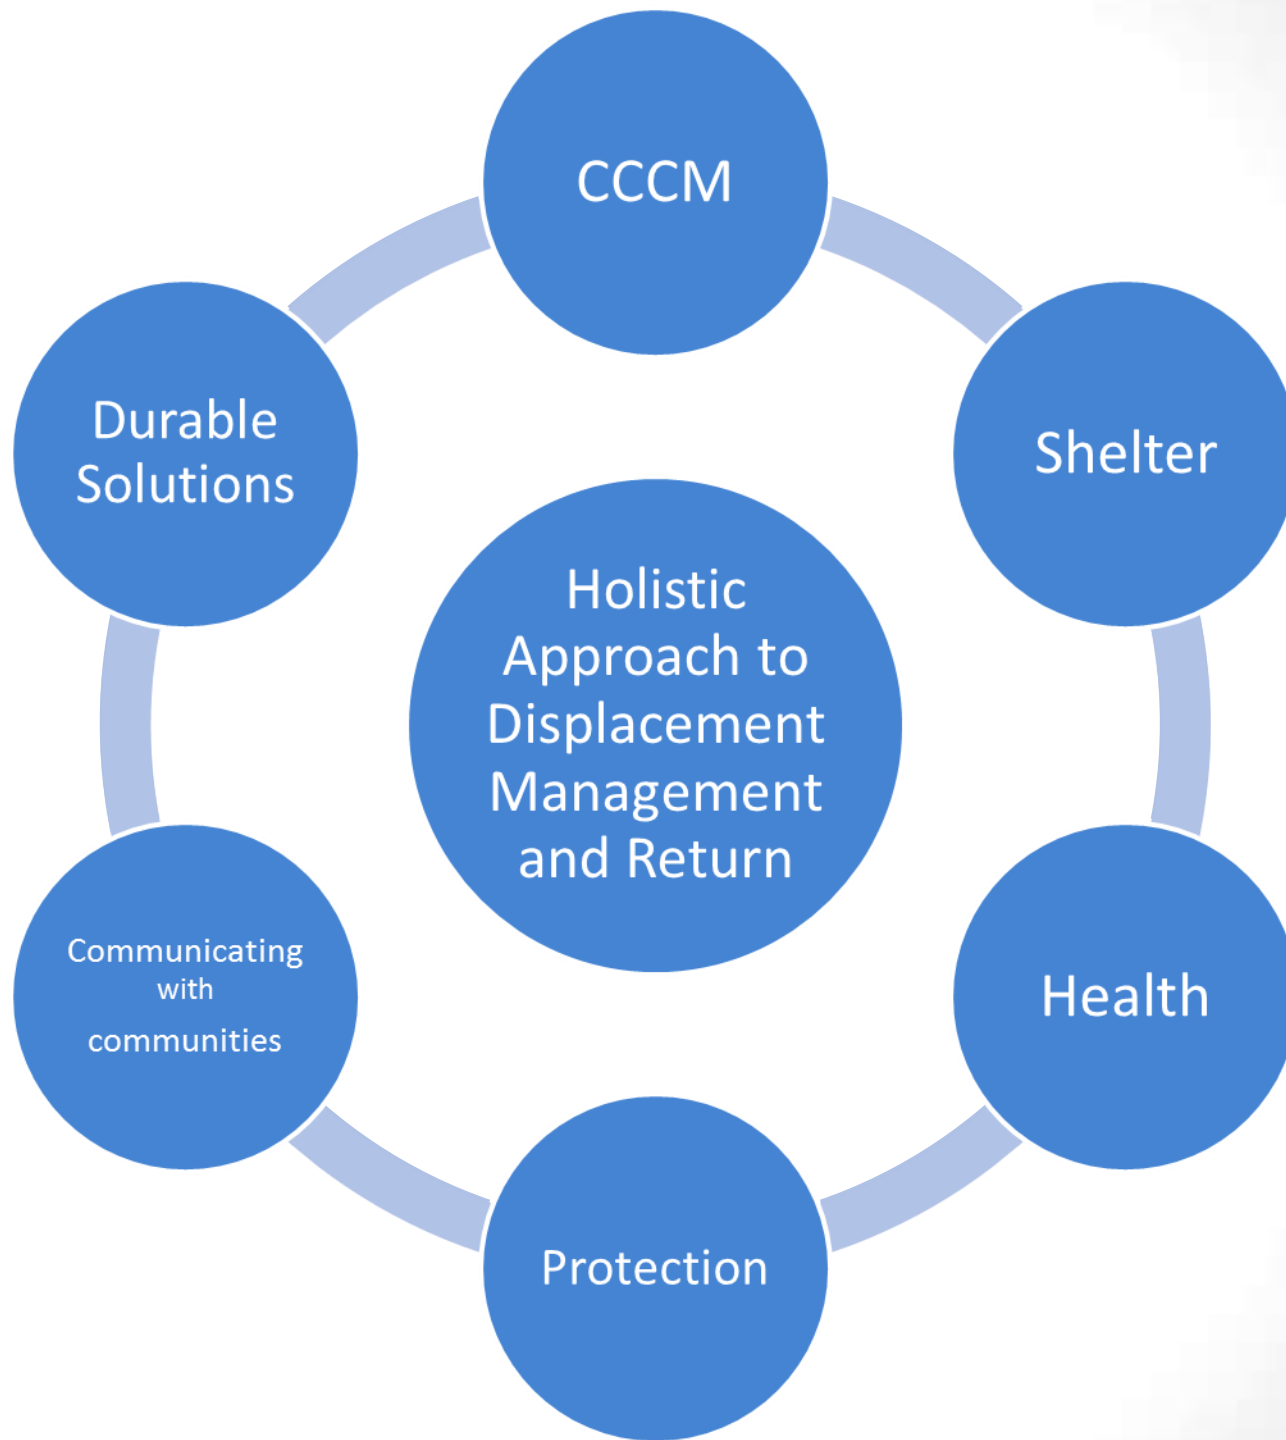

Coordination - external

- Government
 - DSWD → PSWD → MSWD → CSWD
 - LGUs
 - DoH
- Clusters
 - CCCM Cluster Co-Lead at all hubs and nationally
 - Shelter Cluster co-lead – Guiuan, Ormoc
 - Protection Cluster
 - Health Cluster
 - WASH cluster
 - Education cluster
 - Early recovery cluster

Coordination - internal

Challenges

- Coordination – multiple levels of government
- Weather
- Political aspects
- Urban population
- Scaling up of activities to address massive needs
- Complexity of durable solutions
 - “no-build zones”
 - Housing, land and property

Future

- Recovery Shelter → permanent shelter
- Alternative Transitional Sites → durable solutions
- Camp management support → capacity development
- Health assistance → health system recovery
- Protection inputs → strengthening protective environment
- Communication → participatory empowerment
- Displacement → Safe, Healthy, Dignified Solutions

Site visit tomorrow

- 0630 - Breakfast at hotel
- 0730 – hotel check out and prepare for field visit
- 0800 – depart for Astrodome
- 0830 – depart for Astrodome evacuation centre
- 0900 – depart for Barangay 84/87
- 0945 – depart for Barangay 49
- 1045 – return to office
- 1100 – depart for Guiuan

HUMANITARIAN RESPONSE FOR TYPHOON YOLANDA-AFFECTED POPULATIONS
