## Migration, Environment & Climate Change: Evidence for Policy

*This project is funded by the European Union,  
implemented by IOM through a consortium with  
six research partners.*

# RESEARCH >>>

Strengthen **knowledge-** and **information-sharing** with new evidence on migration and environment

**Explore** how migration can contribute to adaptation strategies in **diverse settings**

- ▶ Conceptual terminology assessment in the area of migration and environmental change, especially climate change and adaptation.
- ▶ National assessments and household-level surveys to provide quantitative evidence.
- ▶ Final comparative report with migration-and-environment scenario-building.
- ▶ Local researcher capacity-building workshops for sustainability.

# CAPACITY-BUILDING >>>

Enhance **government capacity** to take action on environmental migration

- ▶ Development of the first-ever training manual on migration, environment and climate change.
- ▶ Training workshops in the 6 pilot countries.

# DIALOGUE >>>

Facilitate **policy coherence** and **cooperation** nationally and regionally

National-level **technical working groups** (TWGs), formed throughout the course of the project, and **national policy consultations**

Other innovative activities, including map development, photo and video documentation, and a global online information-sharing platform.

- Six pilot countries
- Project period: January 2014 to December 2016
- Budget: EUR 2.4 million\*

\* EUR 1.9 million of the budget is funded by the European Union. IOM is reaching out to collaborate or find synergies with projects of a similar orientation. Please contact IOM for more information.
