IOM REVISED APPEAL

IOM PROGRAMMING WITHIN THE REVISED PAKISTAN FLOODS EMERGENCY RESPONSE PLAN 2010

SEPTEMBER 2010

SUMMARY

The floods that struck Pakistan in July-August 2010 have been the worst in the country's history affecting more than 18 million across Pakistan, killing some 1,750 people and devastating homes, essential services, key infrastructure and the livelihood of a vast majority of those residing in these areas. Eighty-one districts have been affected by the floods over an area of 160,000 km², reaching from Gilgit-Baltistan in the mountainous north to southern Sindh.

This appeal covers proposed IOM interventions within the revised Pakistan Floods Emergency Response Plan (FERP) 2010. The fifteen IOM projects are concentrated in the following clusters: Shelter & Non-Food Items (NFIs), Community Restoration, Health, Camp Coordination and Camp Management (CCCM), Coordination and Support Services, Logistics and Emergency Telecommunications, Agriculture and Protection

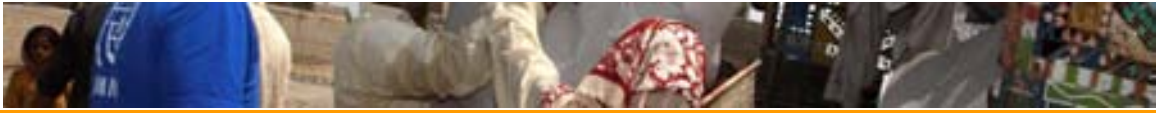

IOM has also been designated cluster lead for Shelter & Non-food Items Cluster for the 2010 Flood Response, and is working with more than 70 cluster partners at national and provincial level to ensure coordination and monitoring of cluster activities.

To continue providing assistance to victims of the floods in Pakistan, IOM is appealing for a total of USD 114.1 million within the revised Pakistan Floods Emergency Response Plan.

CAPACITY AND RESPONSE TO DATE

Working in Pakistan for nearly thirty years, IOM is in daily contact with the country's government on the national, provincial, district, and sub-district levels. For the flood response and other natural disasters the Organization's main national counterpart is the National Disaster Management Authority (NDMA).

IOM has an extensive mission and sub-office structure throughout the country with long established networks of cooperation with national and international organizations. IOM's main office is located in Islamabad, and the Organization has also offices in Mirpur, Peshawar, Lahore, Multan, Sukkur, Karachi, Hyderabad, Buner and Dir.

In addition, IOM has been designated lead for Shelter & Non-food Items Cluster. This follows cluster lead functions for Emergency Shelter after the 2005 earthquake and CCCM in 2007. IOM is coordinating the shelter response at the national level and is also in charge of the shelter coordination in the field hubs in Punjab and Sindh, while other partners have taken up coordination role in other provinces. At the moment, more than 70 partners work closely together in the Shelter cluster to help flood-affected victims.

IOM Pakistan Offices

As of 21st September, IOM and shelter cluster members have provided emergency shelter for more than 373,000 households across Pakistan. This includes over 237,804 tents and 272,688 plastic tarpaulins¹.

IOM has also established two clinics at Rural Health Center (RHC) Sher Sultan and RHC Kot Mithan with mobile outreach capacity in flood-affected districts Muzaffargarh and Rajanpur. Fixed clinics are established in Rural Health Center Gharo and Rural Health Center Chauhar Jamali of district Thatta in Southern Sindh. Since establishing the clinics, IOM doctors and health staff have treated more than 2,000 patients including children, women and elderly people. Most common diseases treated are diarrhea, skin diseases and suspected malaria.

The IOM mass communications programme is a service established for the flood affected populations, the government and the humanitarian community to inform flood victims of humanitarian services such as available health facilities, vaccination campaigns, food and shelter distributions and prevention measures against water-borne diseases. Information is provided through a variety of informal and formal communication networks including FM radio, electronic and print media, group discussions, distribution of printed materials and awareness raising sessions in communities.

While donor support received through contributions from Canada, ECHO, Japan, Sweden, United Kingdom, the USA, the CERF and the ERF amounting to some USD 29.5 million have allowed IOM to provide initial assistance to populations affected by this crisis, IOM is seeking additional support to expand and continue its existing its provision of assistance to victims of the floods in Pakistan.
