NUMBER OF AVRR BENEFICIARIES, PER MONTH 1 JANUARY - 30 SEPTEMBER 2017, IN COMPARISON WITH 2016

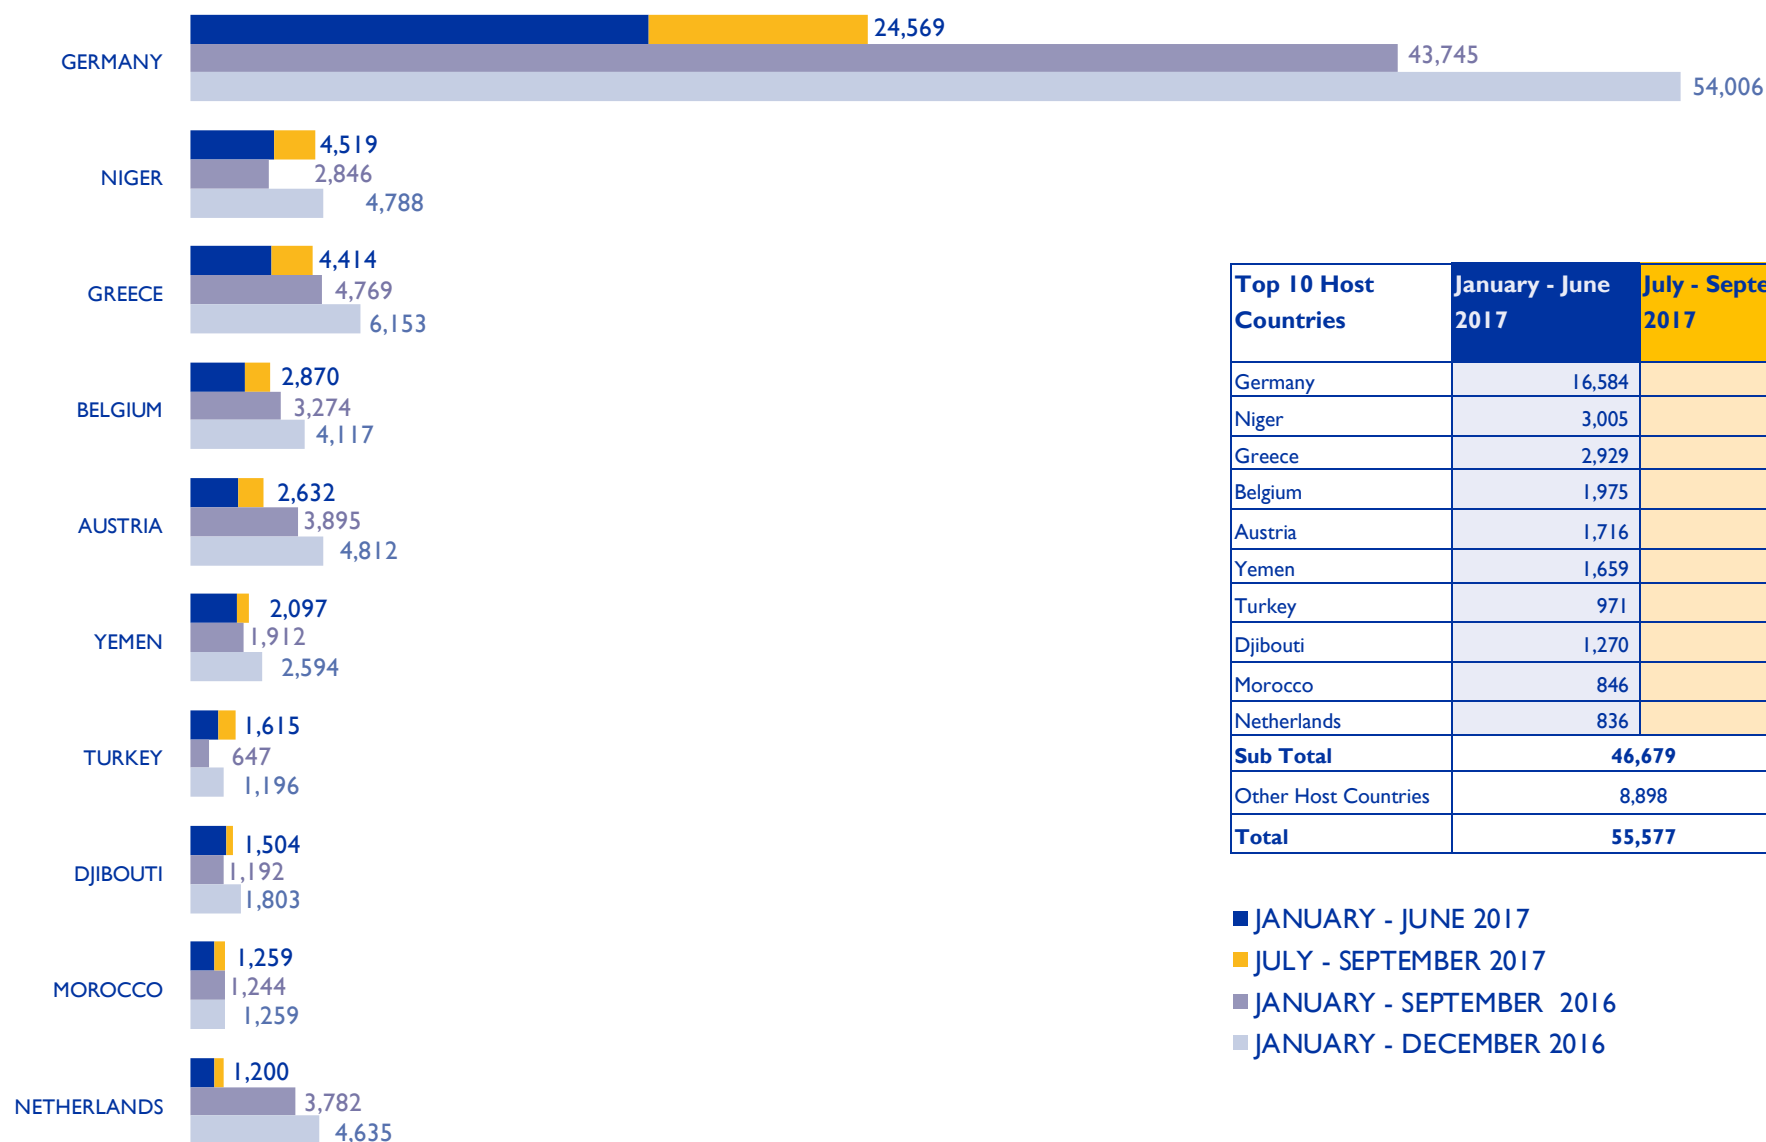

Figures presented in this Bulletin show a decrease in the number of AVRR beneficiaries in the first three quarters of 2017, as compared to the same period in 2016. This is mainly due to a lower volume from the European Economic Area (EEA) and Switzerland. This decrease can be explained by a combination of structural and contextual factors, varying from country to country: lower influx of migrant arrivals and asylum applications (although recent trends suggest an increase in the number of migrants in vulnerable situation); and changes in national migration and asylum policies, including increased emphasis on forced returns or restrictions in AVRR eligibility criteria.

55,577 MIGRANTS ASSISTED with AVRR from 1 January to 30 September 2017
