 Tsunami Hazard

NOAH Multi-hazard*

- The legend consists of five colored squares with corresponding labels: a yellow square for 'Low', an orange square for 'Medium', a red square for 'High', a green square for 'High Susceptibility', a blue square for 'Moderate Susceptibility', and a purple square for 'Low Susceptibility'.

NOAH Multi-hazard Map is composed of a combination of landslide, flood, and storm surge hazards maps. Landslide hazard map identifies areas that may be affected by landslides; floods were simulated at a 100-year rain return scenario; and storm surge simulation was based on maximum storm tide heights of 5 meters.

An NOAH Multi-hazard Map ay kombinasyon han landslide, flood, ngan storm surge hazard maps. Ha landslide hazard map, quinibulihan an mga lugar na posible maapektuhan han mga landslide, ha pagbabahin quinamit an 100-year rain return periodnon. Ba-anan, jumulid an upisibonnon, ba-eforum, nuwan nigu-felice, ope, na pagdala, dyutang, pero, ronbow, ba, Ju-lis mofra.
