

Municipality of Guiuan
San Juan

Multi-hazard Map Lupok (Pob.)

Guiuan, Eastern Samar

Legend

- Evacuation: Blue line
- Residential: Yellow circle
- Evacuation Route: Blue line
- Barangay Boundary: Dashed line
- Municipal Boundary: Solid line
- Roads: Grey line
- Tsunami (READY Project): Blue wavy line
- Tsunami Hazard: Blue wavy line

NOAH Multi-hazard*

- Low: Yellow
- Medium: Orange
- High: Red

Liquefaction (READY Project)

- High Susceptibility: Green wavy line
- Moderate Susceptibility: Blue wavy line
- Low Susceptibility: Purple wavy line

NOAH Multi-hazard Map is composed of a combination of landslide, flood, and storm surge hazards maps. Landslide hazard map identifies areas that may be affected by landslides; floods were simulated at a 100-year rain return scenario; and storm surge simulation was based on maximum storm tide heights of 5 meters.

An NOAH Multi-Hazard Map ay kombinasyon ng landslide, flood, ngan storm surge hazard maps. Ito landslide hazard map, gumambing sa mga lugar nga posible magapokanan han mga landslide, ha pagbaha, guringanti an 100-year rain return scenario ha pag-simulate, gumpasahan ha storm surge simulation an storm tide height nga masabot ha 5 kaentero.
