- Moderate Susceptibility
- Low Susceptibility

NOAH Multi-Hazard Map is composed of a combination of landslide, flood, and storm surge hazards maps. Landslide hazard map identifies areas that may be affected by landslides; floods were simulated at a 100-year rain return scenario; and storm surge simulation was based on maximum storm tide heights of 5 meters.

An NOAH Multi-hazard Mapa ay kombinasyon han landslide, flood, ngan storm surge hazard maps. Ha landslide hazard map, gungbatihan an mga lugar nga posible mapalibutan han mga landslide; ha pagbatihan, gungbatihan an 100-year rain return scenario ha pag-simulate, gungbatihan ha storm surge simulation an storm tide height nga mababot ha 5 ha-metro.
