19,088* MIGRANTS ASSISTED with AVRR** from 1 April to 30 June 2017

24% children

30% women

70% men

81 host countries

136 countries of origin

0.8% identified victims of trafficking

* The data provided in this bulletin is provisional and should therefore be considered as an estimation.

** Figures on reintegration assistance are consolidated at the global level on an annual basis and are therefore not reflected in this Bulletin.
Figures presented in this Bulletin show a decrease in the number of AVRR beneficiaries in the first semester of 2017, as compared to the same period in 2016. This is mainly due to a lower volume from the European Economic Area (EEA) and Switzerland.

This decrease can be explained by a combination of structural and contextual factors, varying from country to country: lower influx of migrant arrivals and asylum applications; increase in the number of migrants in vulnerable situation (whose processing requires more time); and changes in national migration and asylum policies, including increased emphasis on forced returns or restrictions in AVRR eligibility criteria.
