Kickstarting Implementation of the Global Compact for Migration

About

The side-event will bring together States and other stakeholders for a dynamic discussion on taking forward implementation of the Global Compact for Migration.

This side-event will shine a spotlight on the tools and practices that governments and other partners can employ to better manage migration and thereby aim to meet objectives of the Global Compact for Migration. Making use of existing tools would allow States and partners to build on the work that has been done already and to achieve tangible results within a short time-frame.

The side-event will discuss initiatives and tools that are:

- Cross-cutting and can support implementation of the Global Compact for Migration as a whole;
- Theme-specific and can support the achievement of individual Global Compact objectives.
