2	Can you please check and advise exact configuration (radio and related options P/Ns) for first two line items of the noted lot: DM4601e and DP4401e?	DIGITAL TWO-WAY MOBILE RADIOS MOTOROLA DP 4401e 20 UNITS ENCRYPTION: STANDARD 16-BIT AND 40-BIT ENHANCED PRIVACY FREQUENCY RANGE: 136-174MHz (VHF) ONE BATTERY FOR PER RADIO (BATTERY MODEL: IMPRES LIION-PMNN4409BR Minimum Rated: ≥ 2150 mAh) ONE ANTENNA FOR PER RADIO:FREQUENCY RANGE: 144-165MHz
3	I would like to submit a proposal for the above RFQ. I've looked over the request, and would like to submit an equivalent product that could greatly reduce cost. I know the bid is requesting Motorola, but as a Hytera dealer we can offer the same robust system. Will an equivalent product suffice, or is Motorola the only product that you will consider?	The equipment specifications were prepared and provided by the experts of the Georgian Border Police, the end users of these equipment and are mandatory to ensure compatibility with existing communication systems.
