BID BULLETIN NO. 1707-02

**SUPPLY AND DELIVERY OF ARMORED VEHICLES FOR INTERNATIONAL
ORGANIZATION FOR MIGRATION, MISSION IN UKRAINE**

03 February 2020

The Bids Evaluation and Awards Committee of IOM Ukraine hereby issues Bid Bulletin No. 1707-01 to answer the following requests for clarifications:

1. Do you have the option of accepting a four meter side blast test?

IOM's Official Answer:

No, AV must meet with VPAM ERV 2010 VR7 or STANAG 4569 v.2 lev.1, which requires ***a maximum vehicle-to-blast distance of 2 (two) meters.***

2. Will the IOM accept a bankers draft as bid security in place of the form?

IOM's Official Answer:

According to IOM armor requirements, indicated in Section II of the Bidding Document, ballistic and blast testing **the entire car** has to be tested and certified by the same organization/testing laboratory only. Material tests results **shall not replace the complete physical tests** (ballistics and blast) and **shall not be accepted as standalone certification proof.**
