Since 2000, IOM has been producing its flagship world migration reports every two years. The *World Migration Report 2024*, the twelfth in the world migration report series, has been produced to contribute to increased understanding of migration and mobility throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers:

- Part I: key information on migration and migrants (including migration-related statistics); and
- Part II: balanced, evidence-based analysis of complex and emerging migration issues.

This flagship *World Migration Report* has been produced in line with IOM's Environment Policy and is available online only. Printed hard copies have not been made in order to reduce paper, printing and transportation impacts.
